

GLOBAL ORGANIZATION FOR EPA AND DHA OMEGA-3S

8 January, 2020

To: NewScience Chile (<http://www.newscience.cl/>)

Dear Mr. Juan Pablo Salas,

GOED has recently completed its 2019 Randomized Testing Program (RTP), in which it has analyzed 24 omega-3 EPA/DHA finished products from the global market. The RTP enables GOED in obtaining a yearly random snapshot of finished product quality around the world, which is informative in identifying existing and emerging challenges.

The GOED RTP identifies finished products with adequate quality, as well as those that may not comply with all GOED Voluntary Monograph parameters. This allows GOED to provide potentially helpful support to product owners about their processes. Ultimately, the aim of this program is to guarantee, and improve where needed, the overall quality of GOED member products on the market.

The product "Omega UP TG DHA 600" (<https://newscience.cl/productos/omega-up-ultrapure-tg-dha-600/>) was randomly selected. The product (batch number XK46118, expiration date July, 2021) was purchased in a local pharmacy (Salcobrand) in Las Condes, Chile (purchase date 13 April, 2019), and tested by Eurofins on behalf of GOED.

The results of the testing showed the following results for the product:

Peroxide Value: 2.2 meq O₂/kg

Para-Anisidine Value: 14.54

Totox: 18.9

Dioxins and furans: 0.333 pg/g WHO2005-TEQ

Dioxin-like PCBs: 0.200 pg/g WHO2005-TEQ

Total of dioxins, furans and dl-PCBs: 0.533 pg/g WHO2005-TEQ

Total PCBs: 1.70 ng/g

Lead: < 0.05 mg/kg

Cadmium: < 0.01 mg/kg

Mercury: < 0.005 mg/kg

Inorganic arsenic: < 0.1 mg/kg

Total omega-3 content was 774.1 mg/g. For your interest, we determined a label claim compliance of 152.7% for EPA+DHA content.

By means of this letter we are pleased to inform you that the product was found to be compliant with all GOED Voluntary Monograph quality parameters.

GLOBAL ORGANIZATION FOR EPA AND DHA OMEGA-3S

There is no need to reply to this letter.

With kind regards,

Gerard Bannenberg – Director of Technical Compliance and Outreach, GOED -
